

Indexes:

- 1) Single column index
- 2) Composite index
- 3) Unique index
- 4) Primary index

Index Type	Columns Used	Allows Duplicates?	Special Feature
Single Column	1	Yes	Simple search
Composite	Multiple	Yes	Multi-column search
Unique	1 or more	No	Prevents duplicates
Primary Index	1	No	Main identifier

Think of a **college database**:

- **Single Index** → Search by *name*
- **Composite Index** → Search by *name + branch*
- **Unique Index** → *Roll number / email* (no duplicates)
- **Primary Key** → *Student ID* (main identity)
